Getting Involved

Have you considered what being an active member of a trade union has to offer you?

- The NASUWT actively encourages students to become involved in their local area.
- Newly qualified teachers have told us that prior involvement in the NASUWT has given them the confidence to go into their first workplace already feeling part of a team and knowing that support is there should it be needed.
- Becoming active in the NASUWT enables you to meet new people and become a part of the wider trade union movement.

The NASUWT strives to recruit contacts within each training establishment to act as a link between NASUWT student members and the Local Association.

Name: _____ Membership Number: _____

University: _____ E-mail: _____

☐ I am interested in becoming a contact.

☐ Please send me more information about becoming more involved locally.
